Allowable Subject Matter

1. Claims 1-4 are allowed.
2. The following is an examiner's statement of reasons for allowance: as applicant properly point out, on page 5 of the remarks, that Ray, et al does not provide at least one credit card reader and a camera at a local purchasing location for effecting communication with a remote data storage unit or remote image display means, operating the credit card reader and camera to effect display of the credit card holder's image and data as a second image on a local image display means, and comparing the displayed second image with the stored first image of the card holder. Applicants further point out, on page 6 of the remarks, that the reference to Houvener, et al fail to teach displaying to the operator at a sales terminal multiple images of identification data, at least one of which is true, and prompting the payment terminal operator to view the data and select the correct data.

Hence, and in view of applicants' arguments, amendment, and in combination with all of the other elements, independent claims 1 and 4 are allowable. Also, since claims 2-3 further restrict independent claim 1, they are allowable also.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
